Participate in the private debt discussion

Topics include:

- » The evolving role of private credit within your alternative asset portfolio
- » Boots on the ground: assessing the growing local presence approach from debt managers in Europe
- » Forging an advantage at the late stage of the credit cycle
- » Assessing investor suitability to opportunities across corporate and real asset debt
- » Catering for the evolving investor base and identities in private debt
- » Overcoming challenges and reaping reward with sponsor-less lending
