Keynote

KEYNOTE SPEECH:

A climate scientist's perspective

Dr. Emily Shuckburgh OBE

Director

Cambridge Zero at University of Cambridge

Climate strategy has been a key topic at the PEI Responsible Investment Forum for a number of years, but 2020 was the year that the debate moved forward significantly. The theme of this year's forum will be how private equity can react to the climate emergency with a number of sessions dedicated to climate including our keynote speaker.

I am looking forward to sharing my views on the climate emergency with an audience of private equity executives as they look to shape the industry's response.
