Debt and Finance

London 2019

Highlights from the 2019 Forum

PEI

Despite the current climate of political uncertainty, investor demand for European real estate continues to go from strength to strength.

With high prices the big question is - how (and where) can you find value in such a competitive and unsettled market? This was just one of many questions addressed at the forum in London.

PERE Europe celebrated its 15th Anniversary in 2019 and continued its mission to translate the insight and updates from our industry leading publication to a conference setting by focussing on the hottest trends, biggest deals, and latest capital raising strategies taking place across the continent.

Alongside PERE Europe, in 2019 the PERE Debt and Finance Forum was successfully launched

to draw in news and insight from our sister publication, Real Estate Capital. This provided a meeting point for Europe's most active debt fund managers; insurance companies, institutional investors, traditional bank lenders and borrowers.

Across 2 days, over 95 speakers shared their industry insights and these forums provided the opportunity for real estate managers, investors and financiers to meet with their peers, share experiences and keep up to date with latest developments in the real estate equity and debt markets.

PERE Europe and PERE Debt & Finance are the only events to consistently deliver the most authoritative speakers and provide the most relevant and objective insights into the current state of the European real estate market.
