**New York Summit agenda**

**4 keynote interviews with leading infrastructure experts:**
Hear from 4 renown infrastructure thought-leaders from both the public and private sector as they share their knowledge on the current and future state of North American infrastructure.

**Limited partner roundtable discussion**
Relatively new as an institutional asset class in the United States, infrastructure is one of the fastest growing real asset classes in North America.
- What type of infrastructure investment opportunities are attractive to institutional investors?
- The manager selection and diligence process
- Direct investing / co-investing vs. third party managers

**GP Roundtable: Opportunities and trends**
- How can private investment be leveraged to create quality infrastructure?
- Could there be a possibility of a national infrastructure initiative after the 2020 elections?

**Renewables and clean energy**
- The evolving place energy fits as an asset class within infrastructure
- What are the current obstacles to growth in core renewables? What are the growth areas outside of core renewables?
- Combating climate change

**ESG: Responsible infrastructure investing**
- Material risk
- Refocus on governance as an issue
- Maintaining social license
- Are our communities okay with private infrastructure?

**Breakout track A | Oil & gas**
- What motivates or discourages sponsors from deals?
- Exploration and development? Are we covering the cost to get the resource off the ground? Getting it to storage and processing plants?

**Breakout track B | The forgotten: water infrastructure**
Opportunities in water and waste management
- What are the key factors that will drive growth in environmentally conscious water infrastructure development in North America?
- What are the most attractive opportunities for water investment?

Learn more about the agenda online: [infrastructureinvestor.com/iiny](http://infrastructureinvestor.com/iiny)
New York Summit agenda (cont...)

Breakout track C | PPPs
- What, if anything, has changed about the US PPP landscape over the last 3-4 years?
- Are state and local governments doing a good job at procuring projects that include private sector participation?

Infrastructure debt
- Which subsectors are most attractive and why?
- Where do opportunities lie across the capital structure in infrastructure / real asset debt?
- What types of cash yields can investors expect?

Telecom infrastructure
- Should digital infrastructure be viewed as “core”? How do investors think about technology risk?
- Where do you see the investment opportunities in digital infra - both from a sector as well as a geographical perspective?
- Is the telecom industry becoming more like a utility? Have business models changed?

Women in infrastructure Forum agenda

Candid and inspiring keynotes from:
- Angela Miller-May, Chief Investment Officer, Chicago Teachers’ Pension Fund
- Meagan Nichols, Partner & Global Head of Real Assets, Cambridge Associates

Visions, insight’s and perspectives
- Emerging opportunities across the infrastructure secondaries market
- Digital Infra: Why has the asset class become attractive? What are returns in space, how are they changing? How do investors think about risk? Is risk reduced?
- Increasing gender diversity in the space - building the pipeline
- How do we build a pipeline line of female infrastructure professionals?
- The path to PE is narrow; is there an Infra pathway?

Energy & renewables: Challenges and opportunities
- The evolving place energy fits as an asset class within infrastructure
- What are the current obstacles to growth in core renewables? What are the growth areas outside of core renewables?
- Combating climate change
- Women in Energy and Infrastructure: how have roles evolved and how we can continue to further gender diversity?
