ONE SUMMIT.

The 2020 Infrastructure Investor Global Summit was a significant occasion for the asset class. During a year of uncertainty, Infrastructure Investor brought the global community together online for the industry's largest meeting of institutional capital dedicated to infrastructure.

This year, we are returning to Berlin. The Summit will take place both **in-person** and **online**. Once again, the 2021 Summit will be comprised of seven individual forums across four days, covering ESG and sustainability, the energy transition, digital infrastructure, infrastructure debt, emerging markets, and social infrastructure (new for 2021).

The event will feature **more than 350 speakers**, along with **600+ institutional investors**, to stimulate fresh thinking around the way the industry must address the challenges of today and tomorrow.

Monday 18 October

Three Forums will open the Global Summit on Monday, covering emerging market opportunities, social infrastructure and why it pays to get ESG and sustainability right in infrastructure.

Emerging Markets Forum

Global Summit 2021

Scaling emerging market investment in a post-pandemic world

- Explore the role of infrastructure in achieving SDGs and net-zero
- Understand the landscape of digital investment and supply of investable projects
- Facilitating the energy transition: scale, development risk and viable revenue models
- Strengthening PPPs frameworks and the lessons across jurisdictions

Social Infrastructure Forum

Global Summit 2021

Investing in assets which provide essential services

- Differentiating social infrastructure from other asset classes
- How healthcare, education, housing and facilities offer long-term upside
- Where do public spaces and buildings fit in?
- Identifying investment volumes, needs and gaps

ESG & Sustainability Forum

Global Summit 2021

The role of infrastructure in the route to net-zero

- What will moving to net zero mean for infrastructure?
- Net-zero asset owners: how investors are aligning themselves with the Paris agreement
- How investors and managers can work with management teams to drive the sustainability agenda
- Sustainability in digital infrastructure investments

Tuesday 19 October & Wednesday 20 October

Over two days, the private infrastructure industry's senior leaders and stars of tomorrow will gather to address the big issues facing the asset class today.

Global Investor Forum Global Summit 2021

The private infrastructure industry's annual general meeting

- What 'building back better' means for the asset class
- How fundraising prospects look for H2 and beyond
- Transportation infrastructure- the good, the bad and the ugly
- How sector-focused strategies can capitalise on market dislocations
- Debating the future of specialist and generalist products post-covid

*Thoughtful and well
curated agenda full of
relevant content*

Thursday 21 October

Three forums will close the Global Summit on Thursday, focusing on investment opportunities in renewables and the energy transition, the rise of digital infrastructure as an asset class and analysis of different debt investment strategies.

Digital Infrastructure Forum

Global Summit 2021

Building the inclusive digital economy for the future

- Investing towards an inclusive, global digital economy
- How the pandemic has reinforced the need for digital connectivity and what that means for private investment
- Where are we seeing significant deal activity taking place in the market?
- An increased spotlight on fibre rollout across Europe and beyond

Infrastructure Debt Forum

Global Summit 2021

From pandemic-resilience towards sustainable growth

- Moving from strength to strength as the low interest rate environment persists
- What characteristics have made, and continue to make, infrastructure debt so pandemic resilient?
- The rise of specialist infrastructure credit strategies
- Assessing the merit of debt investment in today's emerging economies

Energy Transition Forum

Global Summit 2021

The future of energy

- Global perspectives on the energy transition as the world moves to net zero
- Generating risk-adjusted returns in an ultra-competitive market
- EV changing infrastructure: is the market ready to deliver the necessary infrastructure?
- Offshore wind: is there a danger of an asset bubble as valuations continue to increase?
