# Responsible Real Estate Forum 2023

June | USA

ESG-related matters are a top priority for key stakeholders in the private real estate markets. Investors must understand how ESG can go hand-in-hand with value creation and incorporate case study learnings into strategies for future growth. The Forum will dissect the opportunities and challenges facing key stakeholders today.

## Key themes include:

### Sustainability

- » The road to net zero: putting plans into action
- » Creating environmentally conscious new builds
- » The role of data: collection, analytics & reporting
- » Decarbonising existing assets to meet new standards
- » How does sustainability affect asset pricing?
- » To what extent are energy prices, economic and political challenges influencing occupier needs?

### Social Impact

- » How can investors deliver positive social change and long-lasting returns?
- » Accurately measuring social impact - achieving rapid progress in benchmarking
- » Rethinking capital vehicles to ensure impact goals are met
- » Working with local communities and organisations to generate social impact

### Governance

- » Navigating upcoming worldwide regulatory changes
- » To what extent is the market governing itself?
- » What are the risks of non-compliance globally?
- » How do investors and managers partner with local, national, and international governments?

### Diversity, Equity & Inclusion

- » Building diverse & successful teams
- » How do you measure success?
- » Driving positive change through new initiatives
- » Securing partnerships with search firms to recruit diverse talent at all levels
- » Retention and attrition: keeping top talent at your organisation
- » Measuring the less visible forms of diversity
- » Compensation & equality of income

Meet and network with ESG focused institutional investors who are looking for new opportunities in the private real estate markets. Enquire today for more information.
