*The event gathered the top names in impact investing and covered key topics to promote the understanding and growth of this market. The organisation and execution was impeccable.*

Diane Damskey  
**Head of Secretariat**  
**Operating Principles for Impact Management**

The Impact Investor Global Summit will be taking place in-person for the first time in London. The conference will mobilise private market institutions to engage with the growing momentum in impact investing. Hear from industry leaders creating scalable, positive change and explore how you can implement impact strategies that create greater value for people and the planet. Join more than 300 attendees from specialist impact fund managers, general asset managers and institutional investors for two days of networking at the must-attend event for impact investment professionals.

Just Climate

# Agenda highlight: Impact investment

## Specialist and generalist impact investment strategies

- » Hear real world investment case studies from single and multi-themed managers
- » Investor appetite for generalist vs specialist strategies
- » What the benefits are of generalist strategies in terms of scaling impact outcomes and return prospects
- » What role will specialisation play in the evolution of the impact market?

**Featuring representatives from Allianz Global Investors, Bain Capital Double Impact and Schroders.**

## Investor panel: Fund investors' perspectives on impact investing

- » How will interpretations of fiduciary duty and other regulatory restrictions on institutional investors change and what will this mean for appetite in impact funds?
- » How are institutional investors approaching fund investment in the impact market?
- » How are pension funds integrating impact into their investment mandate?

**Featuring representatives from Guy's and St Thomas' Foundation and CalSTRs.**

# Agenda highlight: Climate

## Investment opportunities in climate and tech impact

- » Which technologies are game-changing in the clean economy transition?
- » Do investors need to take on more venture capital risk to support emerging technologies?
- » Where should climate investment sit within the private market portfolio, private equity or Real Assets?
- » How commercially mature are hydrogen and carbon capture technologies?

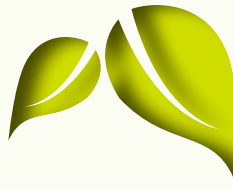

**Featuring representatives from Giant Ventures, TPG Global and Vedra Partners.**

## Looking to COP27 - Going beyond net-zero commitments

- » How can the impact market accelerate the energy transition?
- » How are institutional investors looking to implement net-zero commitments in practice?
- » Is a specific impact allocation of total investment enough or should impact considerations be embedded into mainstream investment teams?

**Featuring representatives from Cambridge Associates and Stepstone Group**

# Agenda highlight: Impact structures

## Direct equity: Innovation in impact structures and incentives

- » How to make impact fund structures and manager incentives fit for purpose
- » Is the 10-year investor model fit for purpose in the impact investment context and what alternative structures make more sense?
- » What examples exist of linking carry with impact performance?

Featuring representatives from  
AP4 and Trill Impact

## Impact debt: The role of impact financing in creating change

- » To what extent are sustainability-linked loans, green bonds and blended finance solutions able to move the needle on SDG achievement?
- » What are the main challenges faced by lenders in creating credible impact-orientated incentives to their borrowers?
- » What are some of the more innovative models being applied in the market?
- » The role of 'catalytic' subsidised capital in blended financing structures?
