Introduction

In September 2021, for its 16th year, the **PERE Europe Forum** was one of the first large-scale conferences to be hosted in-person since the start of the pandemic. The conference brought together some of Europe's biggest institutional investors and fund managers, with more than 250 attendees and 70 speakers over two days.

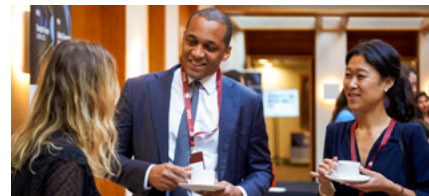

As the real estate industry goes through one of the most dynamic periods in its history, our distinguished panel of speakers discussed how the EMEA market was faring relative to other investment regions, explored the migration of capital from traditional to 'new economy' sectors, and debated the pillars of strategy needed to be successful real estate investors in the coming decade.

I really enjoyed attending PERE in London, the first in-person event since the lock downs started, which allowed me to connect with investors, managers and consultants.

“

It was fantastic to again meet fellow professionals face to face. The PERE Europe set up was, as usual, very professional and it proved a greater opportunity to (re)connect with others
