

The background of the entire slide is a photograph of several wind turbines silhouetted against a vibrant sunset sky. The sky transitions from a deep orange near the horizon to a darker, hazy blue at the top. The turbines are of varying heights and are positioned across the frame, with the most prominent one on the right side.

Agenda highlights for the summit

Impact investing in a time of uncertainty

How is rising inflation, interest rates hikes, the Ukraine war and the energy crisis in Europe going to influence the evolution of impact investing?

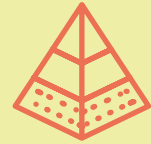

Investor allocation priorities

What sectors, strategies and investment themes are resonating most with the growing pool of impact-orientated capital?

Deploying capital for climate impact

Where are the best emerging investment opportunities in energy transition, climate adaptation, food systems, natural capital solutions, water and carbon removal?

Solutions to wealth inequality

What are the innovations, models and impact funds that are meaningfully addressing inequality?

Agenda highlights for the summit

Deploying capital to address social problems

How is capital being deployed in tackling issues such as affordable housing and healthcare, sustainable communities and financial inclusion?

Structuring impact as a mainstream allocation for your LPs

What innovations are taking hold in impact fund structures and incentives?

Impact washing and regulatory outlook

How can you best comply with regulations such as SFDR and the upcoming rules coming from the SEC?

Impact reporting and supporting impact claims

What are the best practices in metrics, measurement and verification of impact performance?
