Responsible Investor Japan is back on the 24-25 May. Join over 500+ attendees in Toranomon Hills, Tokyo for two days of networking and connect with the community to discuss the latest industry developments and best practices in sustainable finance.

Connect with like-minded individuals at the largest ESG conference to address the latest ESG topics and issues and learn about Japan in the global context.

Programme at a glance

1 Connect with the Japanese ESG and sustainable finance industry

Past attendees included **Dai-ichi Life Insurance, GPIF, Japan Post Insurance, Pension Fund Association, JFSA, METI**, and many more.

2 Answer your biggest ESG questions from industry experts

Carefully curated panel sessions will showcase the depth and the dynamics of sustainable finance discussion from global standardisations of ESG to organisational challenges to take up portfolio decarbonisation.

3 Gain a global perspective with Japan-focused content

Discuss how to progress Japanese business in a sustainability-conscious world with our well-established network of sustainable finance practitioners in Japan and from across the globe. Gain unrivalled opportunities only available at Responsible Investor's event series.

Featured sessions from the agenda

The evolution of data and Japan's role in data disclosure

- » Understanding the FSA code of conduct for ESG evaluation and data providers - how will it impact on ESG markets?
- » Can it tangibly influence investor confidence in ESG ratings and enhance ESG standards?
- » Alternative data sets, what is the next generation of ESG data?

Debating the future trajectory of ESG and its implications for investors

- » ESG has faced considerable headwinds, given the recent backlash in the US, Ukraine war, energy crisis and increasing concerns of greenwashing – what are these impacts in the longer term?
- » What actions are needed to be implemented to boost ESG's credibility and what can Japan's investor community do to enhance this?
- » What lessons can Japan's ESG community learn from the backlash in the US?

Bringing the biodiversity challenge into the mainstream

- » How can you best manage biodiversity risk in the portfolio?
- » How do investors view the Cop 15 adoption of the Post 2020 framework?
- » How do you go about getting data and is biodiversity data reliable?
