

New
Private Markets

Investor Summit

4-5 November | New York

Event website: www.peievents.com/en/event/new-private-markets-investor-summit-north-america

Event overview:

New Private Markets Investor Summit is the leading conference on thematic investing in private markets. From investing in energy resilience, reshoring, future of supply chains, circular economy, climate adaptation, and AI, this is the event to make sense of a changing world as an investor.

We bring together 350+ top-tier fund managers and allocators for two days of networking, thought leadership on the most compelling opportunities to future-proof your portfolio, as well as how to navigate uncertainty in policy, liquidity challenges and tech disruption.

Programme

Day one

Tuesday 4th November 2025

8.00 *Networking breakfast and registration*

8.45 *Chair's opening remarks*

State of the market

9.00 **Plenary #1: Allocator perspectives - thematic investing in a complex world**

- How are investors integrating changing incentives, tariffs, climate and AI into their investment strategy?
- What's most important to allocators right now?
- What opportunities is private capital particularly well poised to capture?
- When looking at the investment landscape as an LP, what is the good, the bad and the ugly?
- Are LPs building portfolios for the right future?

John Goldstein, Global Head of Sustainability & Impact Solutions, Asset & Wealth Management, **Goldman Sachs**
Andrew Siwo, Director of Sustainable Investments and Climate Solutions, **New York State Common Retirement Fund**
Sophia Tsai, Managing Director, Investments, **Trinity Church Wall Street**

9.45 **Plenary #2: How to address private markets' liquidity problem**

- For how much longer will private markets' liquidity situation remain tight, is there thaw in sight?
- What's next in private market liquidity management?
- Are continuation vehicles a bridge or a band-aid?
- What other structures are helping investors with their need for liquidity in the current market environment?

Moderated by Jennifer Kenning, CEO & Co-Founder, **Align Impact**

Tom Jorgensen, Managing Director & Co-Head of Impact Secondaries, **North Sky Capital**
Mark Berryman, Partner, **Capricorn Investment Group**
Valerie Red-Horse Mohl, Deputy Chief Investment Officer, Responsible Investing, **Office of the New York City Comptroller**

10.30 *Break*

The new megatrends

11.00 **Plenary #3: Reshoring, post-globalisation and domestic supply chains**

- What is the future of manufacturing in the US?
- How is advanced industrial manufacturing unfolding?
- Where are investors finding opportunity in reshoring and which sectors are set to benefit most?
- How are geopolitical and trade shifts creating opportunity in domestic supply chains?
- How are the trends of deindustrialisation and digitisation, going to play out in the coming decade?

Virginie Morgon, Managing Partner, **Ardabelle Capital**
Tracy Gray, Founder and Managing Partner, **The 22 Fund**

11.40 **Plenary #4: Future of US energy - Investing in energy security and resilience**

- Unprecedented demand load is coming, can supply keep up?
- How should investors think about “clean electrons” vs “clean molecules”?
- Can climate-conscious investors back AI and still meet decarbonisation goals?
- Where are the investable opportunities in battery storage, grid optimization, power transmission, storage, and reliability?
- How are corporates solving their own energy security, and can investors follow?

Cynthia Kueppers, Partner, Planetary Health Investments, **Novo Holdings**
Rahul Advani, CEO and Managing Partner, **SER Capital Partners**
Gayle Miller, Senior Advisor, **Brookfield**

12.20 **Plenary #5: Investing in a safe and just AI transition**

- How can the vast productivity gains from AI be democratized?
- How can investors direct funding to help manage societal and economic disruption brought on by AI?
- What are the risks of inaction on safety considerations in AI?

- How can funds ensure ethical alignment of AI investments?

Roraj Pradhananga, Co-Chief Investment Officer, **Veris Wealth Partners**

A great way to meet 6-8 new people with 4-minute per meeting. Please note, places are limited to 50 and look out for our communication regarding how to sign up in the month prior to the conference.	

12.30 Lunch

1:30 **Elevator pitches: The best up-and-coming managers**

In this session you'll be hearing from some of the most innovative and exciting emerging managers in North America. We'll hear a set of 5-minute pitches from three of the most exciting managers we've found in the market, followed by an open Q+A with the speakers facilitated by the chair. We are committed to providing a platform for new managers that are doing exceptional work.

2:10 **Keynote TBC**

2:30 **Debate: Climate-related investing in the US is now un-investable**

This is an Oxford-style debate in which we'll have two speakers for the proposition and two speakers against, with audience voting on their views at the start and at the end of the session. This session will also be off-the-record.

The political atmosphere has shifted considerably for sustainable investing since the start of the Trump administration's second tenure in the White House. With the effective repeal of the Inflation Reduction Act and the passing of the 'Big, Beautiful Bill', and the resulting changes in tax incentives and subsidies, the viability of climate investment is being brought into question.

In this debate, we explore this drastic policy shift and the resultant fallout for climate, decarbonisation and electrification investing; asking what the future of climate-related investing is likely to be in the US. Will it continue as a going concern, and if so, in what form?

The debate session will explore questions such as:

- Will the rush to create energy supply (for AI datacentres etc) take a sustainable course?

New Private Markets Investor Summit 2025

November 4-5, 2025
Convene 360 Madison Avenue, New York

- Are electrification-related investments facing too much political adversity to survive?
- What climate investment are resilient and above the political tumult?
- Which countries are likely to benefits from a US pullback in climate?

3:30 Closing remarks

3:40 End of conference
