# Building a Legacy - Harnessing the Power of Private Real Estate for Visionary Japanese Pension Funds

Yoshisuke Kiguchi made headlines when he placed 90% of total assets of his pension fund (which manages several corporate pension plans), into alternatives. Considered a visionary by the industry, and one of the top pension executives in Asia, hear about how he views private equity real estate as an integral part of building a lasting legacy for investors.

Join him to gain insight into balancing liquidity, risk diversification, and the transformative power of real estate leveraging stable income streams.

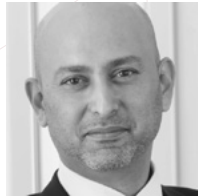

A portrait of Yoshisuke Kiguchi, a middle-aged man with short dark hair, wearing a dark blue suit jacket over a white shirt. He is looking directly at the camera with a neutral expression. The background is a light beige color with faint geometric lines.
